不遇

THE ONES THE ERA MISSED

不遇 · 大唐失意者

You wake on Zhang Ji's boat at Maple Bridge — you are not Zhang Ji. Ring the bell once. Wait three seconds. Hear the person the era never answered. Five poets, five ways of not being caught by their time.

3.000 SECONDS

Scheduled on Web Audio **AudioContext.currentTime**: near bell → window light, wind, ripples → far bell → poem. Not an animation timer — the sound really travels for three seconds.

FIVE REAL-TIME SCENES

Tavern · Moonlit Feast	River Snow · Lone Fishing
Temple · Night Rain	Bamboo · Unmet
Study · Night Rain	10 Questions · Verdict Card

All five are real-time WebGL 3D: walk in first person, press V to orbit in third person.

TECH

- Lux3D G1: bridge, bell, pot, boat, pavilion
- Five real-time 3D scenes, first/third person
- three.js Water / HDR / shadows
- ACES + Bloom + SMAA (no DoF)
- Canvas verdict card + real QR

60-SECOND PATH
Enter → ring bell → wait 3s → tavern → "Let a poem choose" 10 questions → one scene → name → card

FIVE WAYS OF NOT BEING CAUGHT

REAL-TIME 3D · FIRST / THIRD PERSON

Tavern · Moonlit Feast

River Snow · Lone Fishing

Temple · Night Rain

Study · Night Rain

WHY "UNMET", NOT "FAILED"

Zhang Ji passed the imperial exam but failed the selection; Du Fu failed; Li Bai never sat for it; Liu Zongyuan and Li Shangyin both passed. "Failed scholars" is historically false. The Chinese title is therefore 不遇 — not caught by the era — and 不第 is kept only as the player's label.

WHAT IS / ISN'T REAL-TIME

All five scenes are real-time WebGL 3D — the tavern, river snow, temple, bamboo grove and study; first-person walk and third-person orbit. No AI scene images and no flat parallax backdrops. Trailer narration is still an Edge TTS placeholder; three human playtests are prepared but not yet run.

NO NAME ON THE LIST. A NAME IN THE POEM.
