不遇

THE ONES THE ERA MISSED

不遇 · 大唐失意者

You wake on Zhang Ji's boat at Maple Bridge — you are not Zhang Ji. Ring the bell once. Wait three seconds. Hear the person the era never answered. Five poets, five ways of not being caught by their time.

3.000 SECONDS

Scheduled on Web Audio **AudioContext.currentTime**: near bell → window light, wind, ripples → far bell → poem. Not an animation timer — the sound really travels for three seconds.

FIVE SCENES + TAVERN

Zhang Ji · Maple Bridge	Du Fu · On the Height
Li Bai · Bring in the Wine	Liu Zongyuan · River Snow
Li Shangyin · The Zither	The Unmet Tavern

One 3D-render scene each, slow push-in, pointer parallax, particles.

TECH

- Lux3D G1: bridge, bell, pot, boat, pavilion
- Lux3D Image API: 5 scenes + tavern
- three.js Water / HDR / shadows
- N8AO + depth DoF + SMAA
- Canvas verdict card + real QR

60-SECOND PATH
Enter → ring bell → wait 3s → choose letter → tavern → Li Bai → raise cup → name → card

FIVE WAYS OF NOT BEING CAUGHT

ZHANG JI / DU FU / LI BAI / LIU ZONGYUAN / LI SHANGYIN

Du Fu · On the Height

Liu Zongyuan · River Snow

Li Shangyin · The Zither

The Unmet Tavern

WHY "UNMET", NOT "FAILED"

Zhang Ji passed the imperial exam but failed the selection; Du Fu failed; Li Bai never sat for it; Liu Zongyuan and Li Shangyin both passed. "Failed scholars" is historically false. The Chinese title is therefore 不遇 — not caught by the era — and 不第 is kept only as the player's label.

WHAT IS / ISN'T REAL-TIME

The boat, water, rain, bell and tavern are real-time. The five poet scenes are AI 3D-render images with 2.5D parallax, not freely orbitable 3D. Poet voice lines and trailer narration are Edge TTS placeholders. Three human playtests are prepared but not yet run.

NO NAME ON THE LIST. A NAME IN THE POEM.
